PROFESSIONAL SUMMARY

Highly organized and detail-oriented professional with a strong track record of optimizing business operations, managing complex workflows, and supporting organizational efficiency. Adept at leveraging technology (including automation, Google Workspace, and AI tools) to streamline administrative tasks, coordinate multi-stakeholder communications, and ensure strict adherence to standard operating procedures (SOPs). Proven ability to handle sensitive information with discretion, manage robust documentation, and adapt quickly to fast-paced executive environments.

PROFESSIONAL EXPERIENCE

Database & Operations Administrator
Sep 2023 - Present

Telecommunications Service Cooperative

- Spearheaded the development of internal tracking systems using Google Workspace (Sheets, Apps Script) to monitor critical business metrics and membership data, ensuring accurate visibility for leadership.
- Automated administrative workflows, including a receipt generation system, to significantly reduce manual data entry and increase overall operational efficiency.
- Managed cross-functional communications and integrated data workflows to capture, store, and evaluate interaction data, assisting management in operational decision-making.

Customer Operations Specialist
Apr 2025 - Aug 2026

MAËLYS Cosmetics

- Managed high-volume communications and prioritized inbound inquiries, ensuring timely and accurate resolution for clients while maintaining strict adherence to company SOPs.
- Conducted detailed order monitoring, logistics tracking, and data handling via Google Sheets, proactively identifying and preventing procedural delays.
- Facilitated the end-to-end processing of complex customer requests, maintaining meticulous records and generating appropriate operational documentation.

Quality Assurance Specialist (Content Moderation)
Sep 2022 - Jul 2024

WIPRO

- Evaluated digital content and maintained strict quality guidelines for a pioneer account, demonstrating high discretion, confidentiality, and attention to detail.
- Monitored workflow data and actively identified and addressed procedural errors to maintain high data integrity across all operational processes.

Nov 2023 - Dec 2023

Workflow Trainer

WIPRO

- Mentored new employees by preparing briefing materials and providing hands-on guidance on workflow intricacies to accelerate their onboarding and operational understanding.
